

Engineering

- Do oil additives reduce friction on engine parts?
- Is there a frictionless magnetic bearing?
- How many rotor blades give maximum lift for a helicopter?
- What paper airplane design gives the best performance?
- Can you use electromagnets to power a car?
- Battle of the bridges - what design holds the most weight?
- Can a car headlight be used as a satellite dish antenna?
- Is there a way of storing the sun's energy?
- Can we harness power from rising air?
- Can we harness power from the waves?
- Can we harness power from the waves?
- Can we harness power from the tides?
- What water turbine blade works the best?
