

# Life Science

- Does a magnetic field affect the growth of beans?
- Does electricity affect the growth of beans?
- Does temperature affect the growth of plants?
- How do plants react to different kinds of music?
- How detergents affect the growth of plants?
- Do plants grow better with tap water or distilled water?
- What are the effects of root bounding on plant growth?
- Do roots always grow down?
- Do mirrors affect the way plants grow?
- Does leaf surface area affect plant growth?
- Leaf size vs. location
- Effects of artificial vs. natural light on plants - which is the best?
- Under which color cellophane do plants grow best?
- Can you give a plant too much fertilizer?
- Which different potting soils work the best?
- Which mulch covering works best?
- Does the phase of the moon affect the germination of seeds?
- Do seeds sprout better in cold or hot climates?
- How does gravity affect the growth of seeds?
- Does acid rain affect the germination of seeds?
  
- Under which thickness of plastic do radishes grow best?
  
- How does the amount of light affect the growth of marigolds?
- Do avocados ripen more evenly with the stems left on?
- Which banana has the most sugar - green, yellow or brown?
- Effects of the environment on popcorn (heat, cold, moisture, time, etc.)
- Does aspirin prolong the life of cut carnations or any other kind of cut flower?
- How do detergents affect the growth of algae in pond water?
- Do earthworms help plants to grow?
- Can insects pull more than their own body weight?
- Ant control - natural vs. chemical repellants
- Do goldfish grow larger in a larger tank?
- What affect does light have on fish feeding?
- Can the color of unborn rabbits be predicted?
- How many grams of food does a rabbit eat per day?

Chickens and colored corn - which will they eat?  
Do pyramids preserve food?  
Does our vision affect our taste?  
Light vs. vision - which color is best?  
Night vision and the effects of colored objects  
The effect of color on depth perception  
Does a blindfolded person walk in a circle?  
Is there a relationship between age and response time?  
Can you recognize your own profile?  
Left-hand, right-hand transference using a "mirror tracing"  
Reading and remembering with different colored paper - which works best?  
Do adults know U.S. geography? (or math skills, science concepts, etc.)  
How teeth react to different liquids  
Do taste buds grow weaker as you get older?  
What effect does coffee have on a person's steady hand?  
What effect does caffeine have on blood pressure?  
Hot tubs and their effect on blood pressure  
Effects of foul smells on blood pressure  
What effect does music have on plants?  
Does a larger motor affect the distance a rocket flies?  
Can an egg container avoid egg breakage from low heights?  
Can I make a Dust Explosion?  
Will lady bugs seek a moist or dry environment?  
Does playing video games change your heart rate?  
What factors influence the process of plant transpiration?  
Acids, Proteins, Lipids: Which Stains are most difficult to remove?  
Which Battery lasts the longest?  
How will my Weather observations compare to the Daily Weather Reports?  
Compare the paper strength and absorption of different types of paper towels  
Which Vegetable generates the most Electricity?  
Can a Battery be made out of a cactus? I  
Which filtering system will filter out the largest amount of dirt?  
Does Ozone Dose affect the Yield of Pinto Bean Plants?  
The Hitter's Choice: Wood or Aluminum?  
Can a fairy Tale influence how Kindergarten Students think?  
Will water temperature affect Goldfish movements?
